*Premier Telecommunications & Infrastructure Installer
Solutions*

About Corerin Technical Solutions (CTS Pacific)

Corerin Technical Solutions, LLC (dba: CTS Pacific) is a trusted leader in full-service telecommunications, network infrastructure installation, and civil underground construction. Operating in Guam and Pacific Region, we deliver turnkey, end-to-end connectivity solutions designed for high reliability, longevity, and industry-grade performance. Our certified telecommunications installers combine cutting-edge technology with precision civil excavating to establish seamless infrastructure for residential, commercial, industrial, and government projects.

Our Core Capabilities & Services

• Fiber Optics Cable Installation

Precision high-speed fiber layout, fusion splicing, OTDR testing, termination, and complete fiber backbone infrastructure for high-bandwidth performance.

• CCTV Security Cameras

End-to-end surveillance system installation, IP camera deployment, NVR/VMS software setup, remote viewing configurations, and commercial monitoring setups.

• Micro Trenching Technology

Innovative, low-impact narrow trenching ideal for rapid urban and commercial fiber deployment with minimal traffic disruption and fast restoration.

• Data Cabling Solutions

Structured Cat6/Cat6A copper cabling, patch panel installations, network rack management, server room cabling, and certified channel compliance testing.

• Access Control Systems

Smart keycard readers, biometric access points, electric strike locks, gate integration, and centralized security management systems for secure facilities.

• Excavating & Civil Works

Professional underground conduit placement, trenching, directional drilling support, utility vault installations, and complete site preparation.

Certified Professional Telecommunications Installers

Our team maintains top industry certifications guaranteeing strict standards compliance, precision workmanship, and reliable network design.

- ✓ FOA Certified (The Fiber Optic Association, Inc.)
- ✓ ETA International Accredited Technical & Vendor-Neutral Certifications
- ✓ Full compliance with ANSI/TIA/EIA telecommunications cabling standards.
